INVITATION FOR OPENING RECEPTION DANISH PAVILION AT E-WORLD 2019 SMART SOLUTIONS FOR A GREENER FUTURE

Denmark aims to become independent of fossil fuels by 2050. Enterprises from all over the world take part in this endeavor with Denmark serving as a learning lab, demonstration case and competence platform for the development of tomorrow's energy solutions. Danish companies take part in E-world 2019 to showcase their solutions and build partnership with important German and international partners. You are hereby invited to visit our Pavilion for the Opening Reception.

WHEN: TUESDAY, 5 FEBRUARY AT 11.30 - 12.00

WHERE: THE DANISH PAVILION, HALL 4, 4-308

Meet the exhibitors

- **Energi Danmark / Energie Vertrieb Deutschland** is a leading European trading group with activities in physical and financial electricity trading, carbon trading, gas and wind energy trading and portfolio management.
- **Nature Energy** is a pioneer in biogas. The company develops and operates a number of large-scale biogas facilities producing biomethane for the Danish gas grid.
- **Seluxit** works with IoT solutions and connection of devices. From the radio modules to the data-driven revenue, Seluxit has the creative ideas that will give the edge in smart-metering.
- **KMD** is a leading supplier of mission-critical software and IT services. The company has a long track-record within energy and utilities securing innovative digital solutions in close partnership with customers.

Welcome to our Opening Reception and a light lunch.
